

CISA Wins the iF DESIGN AWARD 2026 – A landmark achievement in international design!

Faenza, March – CISA is proud to announce that its **Alpha panic exit device** has been honoured with the prestigious **iF DESIGN AWARD 2026**. Recognised worldwide, the award stands as a **seal of excellence in design quality**. It is presented by iF International Forum Design GmbH, one of the world’s longest-established independent design institutions, with over 70 years of history.

Alpha received the award in the **Product Design discipline, category Building Technology**, in recognition of its outstanding and forward-thinking design. Selected from **more than 10,000 entries submitted from 68 countries**, CISA emerged among the very best — a remarkable achievement given the highly competitive nature of the award.

With its cutting-edge linear and ergonomic design — enhancing usability, reducing activation effort, and simplifying installation — Alpha impressed the **international jury of 129 independent design experts**, standing out in a field of top-level competitors and earning the coveted mark of distinction.

Further information about the Alpha panic exit device is available on the **official [iF website](https://ifdesign.com/en/winner-ranking/project/cisa-alpha-panic-exit-devices/763484)** under **“Winners & iF Ranking”**: <https://ifdesign.com/en/winner-ranking/project/cisa-alpha-panic-exit-devices/763484>

About CISA

CISA, a brand of **Allegion**, is one of Europe’s leading providers of security and access control systems. Since its foundation in **1926**, it plays a primary role in satisfying the security requirements of any type of building with **dedicated electro-mechanical solutions**, which enable real-time access control and management. Whether it’s residential homes or business centers, schools or health and hospitality facilities,

safety is our main concern.
